

To Whom It May Concern:

I wish for you to leave our state's Do Not Call List as is. If I wish to do business with a company I will make contact with that company. I do not need the few hours I get to enjoy per day with my family disturbed by calls I am not interested in. These companies have no right to force their wishes upon us and it is your duty to uphold the private citizen's wishes not the corporate lobbyists.

Thank you for your time.

Sincerely,

Coleen Scullin
